Dear Colleagues,

The Korean Society for Emotion and Sensibility (KOSES) has great pleasure inviting you to ‘The International Conference on Emotion and Sensibility 2015 (ICES 2015)’ to be held in Jeju Island, South Korea, November 18th to 21th, 2015. Jeju Island has the most beautiful places to visit in Korea. Jeju Volcanic Island and Lava Tubes are registered in UNESCO World Natural Heritage. Conference venue, Phoenix Island, is located inside Seopjikoji Beach and just besides Seongsan Ilchulbong (Sun-Rise Cone) which is an archetypal tuff cone formed by hydrovolcanic eruptions upon a shallow seabed about five thousand years ago. Seopjikoji Beach and Seongsan Ilchulbong are the most beautiful sites in Jeju Island and very famous for filming sites of so many dramas and movies.

ICES 2015 is the premier conference devoted to the study of emotion and sensibility. The objectives are to provide a state-of-the-art overview of a wide range of topics in the area of emotion and sensibility, offering practical reviews of current research and topics, providing tutorials for commercial company and allowing delegates to participate in formal and informal discussions with international experts in the particular field of interest.

At the ICES2015, lots of specialists from different countries come to learn about new developments and advances in the field of emotion and sensibility, from laboratory science to the commercial field. The program includes plenary sessions, topical workshops, symposia, and poster sessions covering every aspect of emotion and sensibility from basic sciences to commercial areas. We hope to greet you in ICES 2015.

Sincerely yours,

Bae Hwan Lee, PhD
President, The Korean Society for Emotion and Sensibility
Professor, Department of Physiology
Yonsei University College of Medicine
Seoul, Korea

Se Jin Park, PhD
Chairman of ICES2015
Director, Division of Convergence Technology
Korea Research Institute of Standards and Science, Korea

**Important Deadline dates**

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sep 30, 2015</td>
<td>Abstract submission closes</td>
</tr>
<tr>
<td>Sep 30, 2015</td>
<td>Early registration closes</td>
</tr>
<tr>
<td>Oct 31, 2015</td>
<td>Standard registration closes</td>
</tr>
<tr>
<td>Sep 30, 2015</td>
<td>Hotel reservation closes</td>
</tr>
</tbody>
</table>

- **Abstract Submission**
  - Abstracts must be submitted electronically via the on-line submission portal ([www.ices2015.org](http://www.ices2015.org)).

- **Deadline for Submission**
  - Abstracts must be submitted by indicated deadline. Late submissions will be considered at the sole discretion of the ICES 2015 organizing and program committees.

- **Official Language:** English.

- **Best Presentation Awards**
  - The ICES2015 intends to award prizes for selective outstanding oral and poster presentations. These prizes are specifically designed for persons to present exceptional studies and research outcomes to the world.

- **Heritage tours**
  - The ICES 2015 invites participants to join an exclusive heritage tour program that is designed to explore the exquisite beauty of Jeju Island. If you are interested in participating in the heritage tour, please contact to our ICES 2015 secretariat.

The ICES 2015 invites the submission of abstracts to be considered for oral or poster presentations that report new research developments in the areas of leading innovation in affective science and engineering. Abstracts are invited from scientists, researchers, and trainees in all sectors, including academia, industry, government, and education.

To submit a poster and oral session abstract for ICES 2015, please follow the instructions on ICES2015 website (www.ices2015.org). All presentation will be considered for either a poster or oral presentation. Please mark your preferred presentation format and you could mark both of the two types, poster and oral.

**Keynote Speakers**

**Kun-Pyo Lee**
Dept. of Industrial Design, KAIST, Korea  
Former President of KOSES  
Design 3.0: New Emerging Disciplinary Paradigm and Its Implication to Emotional Engineering

**T. J. Kamalanabhan**  
Dept. of Management Studies, Indian Institute of Technology, Madras, India  
Research on Emotion and Sensibility in India

**Weihong Zeng**  
Jinhe Center for Economic Research, School of Public Policy and Administration, Xian Jiaotong University, China  
Disablity trajectories for the elderly in rural China

**Masayuki Takatere**  
Professor, Institute for Fiber Engineering (IFES), Interdisciplinary Cluster for Cutting Edge Research (ICER), Kyushu University, Japan  
President of Japan Society of Kansai Engineering  
Fashion textile and apparel in Kasei engineering

**Programs with invited speakers**

**Workshop**

Workshop 1: Clothing Textiles Emotion (Organizer: Youngjoo Na, Inha University, Korea)  
Workshop 2: Emotional Vehicle Design (Organizer: Se Jin Park, KRIS., Korea)

**Symposium**

**Session 1: Updates of Emotion & Sensibility Research**
  Hemispheric specialization and disengaging attention from affective stimuli: Evidence for valence-dependent lateralization in emotion regulation  
  Aizuddin Khan (Indian Institute of Technology Bombay, India)  
  Global education in China  
  Wang Peng, PhD (Nanjing University, China)  
  Designing methodologies of human machine Interface of driving support systems  
  Keisuke Suzuki, PhD (Kagawa University, Japan)  
  New technology with use of “small size sensor” and “wireless system” for evaluation of physiological function  
  Kazuyoshi Sakamoto (University of Electro-Communications, Japan)

**Session 2: Emotional Awareness and Brain Function**
  Mother’s emotional inhibition during a go/no go task: An ERP study  
  Sayuri Hayashi (Kyushu University, Japan)  
  Oxytocin receptor gene polymorphism and brain activity  
  Damee Choi, PhD (Kyushu University, Japan)  
  Anterior cingulate cortex and amygdala dysfunction during sadness in patients with alcohol dependents  
  Mi-Sook Park (Yonsei University, Korea)  
  Recognition of emotion from faces and voices  
  Eun Park (Chungnam National University, Korea)  
  Modelling and analysis of human behavior patterns in a social competitive game  
  Sung-Phil Kim (UNIST, Korea)

**Session 3: Non-contact Tactile Sensation**
  Non-contact tactile sensation by pulsed laser stimulation  
  Joo-Hoon Jun (Konkuk University, Korea)  
  Mid-air tactile stimulation using laser-induced thermoelastic effects: The first study for indirect radiation  
  Seungmoon Choi (POSTECH, Korea)  
  Evidence for laser-activation of touch receptor: In vitro study  
  Young Min Bae (POSTECH, Korea)  
  Investigation of human brain activity for tactile perception  
  Sung-Phil Kim (UNIST, Korea)

**Session 4: Affective Textiles: Present and Perspectives**
  Compound sensibility of odors and colors of natural dyed fabrics  
  Youngsoon Lee (Chungnam National University, Korea)  
  Effects of color and intensity of scent-infused textiles on electroencephalography and olfactory affection  
  Myungyeun Lee (Yonsei University, Korea)  
  Digital coloring clothing and emotion  
  Jin-Hye Yang (Yonsei University, Korea)  
  Textile user interfaces for smart interactive clothing system  
  Jung-Sim Roh (Sungmyung University, Korea)  
  Heat strain index using physiological parameters while wearing personal protective equipment: Bio monitoring technology  
  Joo-Young Lee (Seoul National University, Korea)

**Session 5: Emotional Design**
  Creativity in the brain  
  SeungHee Lee (University of Tsukuba, Japan)  
  Exploring bio-signals to measure the impact of design factors on user experience in retail Environments  
  So-Yeon Yoon (Cornell University, USA)  
  Affective engineering for designing lighting scenarios  
  Hyeong-Jeong Suk (KAIST, Korea)  
  How color hue-tone affects the perceptions of film characters’ emotions  
  Yu-Jin Kim (Kongju National University, Korea)  
  Emotional quality of product and the overall satisfaction of the product  
  Sang Hoon Jeong (Mokwon University, Korea)

**Session 6: Pathology of Emotion: Addiction**
  Glutamate homeostasis and synaptic plasticity in drug addiction  
  Hoe-Won Shin (Peking University, China)  
  Peripheral and spinal mechanisms underlying manual acupuncture inhibition of cocaine behavioral effects  
  Hee Young Kim (Daegu Haany University, Korea)  
  Effect of acupuncture on the reinstatement of cocaine-seeking behavior  
  Chae Ha Yang (Daegu Haany University, Korea)  
  Serum exosomal microRNA-137 predicts repeated psychostimulant exposure after prolonged abstinence  
  Hee-In kim (KIST, Korea)
