|-------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Automated Color Image Arrangement Method Based on Histogram Matching.....</b>                                                          | <b>85</b>  |
| <b>– Investigation of Kansei impression between HE and HMGD –</b>                                                                         |            |
| Yusuke KAWAKAMI, Tetsuo HATTORI, Haruna MATSUSHITA, Yoshiro IMAI,<br>Hiromichi KAWANO and R.P.C. Janaka Rajapakse                         |            |
| <b>A Talking Robot and the Expressive Speech Communication with Human .....</b>                                                           | <b>95</b>  |
| Hideyuki SAWADA                                                                                                                           |            |
| <b>Examining Barrel Distortion, Super-resolution on<br/>    Single-view-based Ear Biometrics Rotated in Depth .....</b>                   | <b>103</b> |
| Daishi WATABE, Takanari MINAMIDANI, Wenbo ZHAO, Hideyasu SAI and Jianting CAO                                                             |            |
| <b>Evaluation of Sleeping Comfort of Bed Mattresses<br/>    with Different Elastic Moduli for Each Body Region .....</b>                  | <b>111</b> |
| Masataka AOI, Kazuma HASHIMOTO, Mayumi UEMAE,<br>Hiroaki YOSHIDA and Masayoshi KAMIJO                                                     |            |
| <b>Apparel Design Optimization for Global Market:<br/>    Kansei Engineering Preference Model .....</b>                                   | <b>119</b> |
| Jay RAJASEKERA and Hiranthi KARUNASENA                                                                                                    |            |
| <b>Performance Evaluation of Line-sensor 3CCD Camera and<br/>    Comparison of Specialist’s Determination and Numerical Approach.....</b> | <b>127</b> |
| Yoshiro IMAI, Hirokazu KAWASAKI, Tetsuo HATTORI and Shin-ichi MASUDA                                                                      |            |
| <b>Erratum .....</b>                                                                                                                      | <b>135</b> |

# International Journal of Affective Engineering

CONTENTS (Vol.14 No.3) (Special Issue on KEER 2014)

---

- Relationship between Jacket Comfort and Stiffness of Adhesive Interlining** ..... 137  
KyoungOk KIM, Chihiro SUGIYAMA and Masayuki TAKATERA
- Identification of Common Words for the Evaluation of Clothes' Appearance and Tactile Sensation in Online Shopping** ..... 143  
**- An Indicator for Producing Images that Express Clothes' Textures -**  
Tomoharu ISHIKAWA, Shunsuke NAKAMORI, Kazuya SASAKI,  
Keiko MIYATAKE and Miyoshi AYAMA
- Investigation of Kansei Added Value in Book Publishing Filed by Using AR Contents** ..... 151  
Jue ZHANG, Yu SASAKI, Takeshi TSURUNO, Yuko MATSUURA,  
Noriko UTSUNOMIYA and Haruaki YAMAMOTO
- User Experience in the Threshold Matrix of Public Space** ..... 157  
**Design Intervention in a Complex Environment**  
Awoniyi STEPHEN
- Detecting Attractive Phrases from Musical Lyrics Focusing on Typical Expressions on Lyrics** ..... 167  
Ryosuke YAMANISHI, Risako KAGITA, Yoko NISHIHARA and Junichi FUKUMOTO
- Effect of Smell in Space Perception** ..... 175  
**- Analyzing the Waiting Experience in a Room under Lavender and Orange Scents -**  
Alejandra VILAPLANA and Toshimasa YAMANAKA
- Fostering Trust-based Relationship between Self-care Users and Home Medical Device in Thai and Japanese** ..... 183  
**- Research on the Methods for Incorporating Social Roles in Blood Pressure Monitor to Increase Thai and Japanese User's Perception of Trustworthiness -**  
Sittiphan JIYAVORANANDA and Toshimasa YAMANAKA
- Aligning Affective Responses with Fabric Features of Vehicle Seat: An Approach Using the Rasch Measurement Model** ..... 193  
Fabio CAMARGO and Brian HENSON
- Using a Kansei-driven Approach for New Concept Development Activities: What It Implies for Industrial Projects** ..... 203  
**- Different Patterns of Design Activities and Design Information Conveyed -**  
Alexandre GENTNER, Carole BOUCHARD and Carole FAVART

|                                                                                                                   |            |
|-------------------------------------------------------------------------------------------------------------------|------------|
| <b>Evaluation of the Effect on Viewer Recognition of Viewing<br/>at an Angle a Sign with Arrow Markings</b> ..... | <b>215</b> |
| Masaaki KOYAMA, Yuki TAKAHASHI and Hisao SHIIZUKA                                                                 |            |
| <b>Eye Tracking Based Analysis of Effects of Motif Composition<br/>on Impressions of Paintings</b> .....          | <b>223</b> |
| - In the Case of Katsushika Hokusai's "Thirty-six Views of Mount Fuji" -<br>Yuka NOJO                             |            |
| <b>The Difference of Imagery Perception between Visual<br/>and Tactile Sensation</b> .....                        | <b>233</b> |
| Yung-Ting CHEN and Ming-Chuen CHUANG                                                                              |            |
| <b>Applying Eye-Tracking in Kansei Engineering Method for<br/>Design Evaluations in Product Development</b> ..... | <b>241</b> |
| Markus KÖHLER, Björn FALK and Robert SCHMITT                                                                      |            |
